

ColePac Small Parcel Service

coleintl.com

Because big shipments come in small packages

While the bulk of the shipments we handle are large, Cole International is also proud of our skilful handling of smaller deliveries between Canada and the US. After all, to our customers, even the smallest shipment is every bit as important as our largest one. But even small parcels can get tied up with customs complications that can delay their delivery.

When you have small packages moving between the United States and Canada, ColePac is the most reliable and cost-effective way to get them to their destinations. Along with door-to-door delivery at competitive rates, this complete service provides all the necessary customs clearance.

What's more, if you already trust Cole International with your larger shipments, we have an up-to-date database of all your goods. This means we're fully equipped to ensure all of your shipments are customs compliant, no matter how large or how small!

To use our ColePac service, simply instruct your supplier to ship prepaid courier ground service to one of our many designated locations. Cole International will take over from there, arranging both customs clearance and delivery. (Certain weight and size restrictions apply for both imports and exports). We also have preferred insurance rates available for your import and export shipments.

With ColePac, you can feel confident that your parcel will steer clear of any barriers that could slow its delivery and that it will arrive at its destination intact and on time.

Service Features and Benefits
